Enforcer: Police Crime Action is a new action game where the story is told through a police officer's eyes. He investigates an interesting case that leads him into a mystery filled with action and suspense. He is a rookie cop sent to a rough neighborhood to help the precinct in its crackdown on crime. Unfortunately he is thrown into an impossible situation when a mysterious woman breaks into his car, blows his head off and then leaves him there. By some grace of the Gods he survives but he has no memory of what happened. He is stuck in his own personal hell which he must escape in order to be able to go back to work. No matter what the circumstances may be, the hero must solve the case and apprehend the criminal, and restore order. Enforcer: Police Crime Action features a world where the only strategy is to think, to be tough and have sufficient equipment to get things done. The game offers fifteen missions and ninety levels of pure and exciting action gameplay. While playing, the player may get help from the three groups: the traffic cops, the mafia, and the police. In addition, there are also bosses to fight. Key Features:

- The game plays exactly like a Hollywood action movie. The player must follow the story line at all times and use the available tools to get things done
- The game features lots of action packed car chases, gunfights and plenty of tricky puzzles
- The game has a number of epic boss battles to overcome
- The game offers fifteen missions and more than ninety levels
- The game plays on easy, medium and hard settings, allowing players with all types of experience to pick a difficulty level
- The game offers five difficulty settings and four types of gameplay settings
- The game features achievements for each level, each mission, and the game completion

Instructions: Please read before playing the game. All In-Game instructions are available in the Help menu. When in doubt press the Help key on your keyboard. To submit a product review, please write your experience and thoughts about the game after you've completed it. Your review will represent an unbiased opinion of the product as a whole and will be published after it is submitted. Your review will be published within one business day. Questions? Please use the Contact Form instead, we answer them as soon as we can.
